

## Haze and Fog Policy

Fog machines, smoke effects and laser light shows will not be permitted without the express written approval of Boise Centre, and additional fees may apply. The use of pyrotechnics is **PROHIBITED**.

The use of fog and haze machines for lighting and theatrical effects is only permitted within Boise Centre West's Grand Ballroom (100) and Boise Centre East's Ballroom (400), provided that the fog/haze fluid used in those machines is water-based.

The use of non-water-based fog/haze fluid, specifically with an oil-based composition, is **prohibited**.

To comply with various state and federal life safety codes, it is required that all fog and haze fluid be appropriately labeled and available for inspection by the Boise City Fire Department, if necessary.

A written request to use a water-based fog/haze machine in the approved areas must be made a minimum of 14 days prior to the event. This request should include a submitted schedule of its intended use, including rehearsals, technical runs, and actual show/event times of use.

Should the use of fog or haze fluid create a residue or slippery coating on any of Boise Centre's infrastructure (stages, stage steps, handrails, dancefloors, etc.), the clean-up or wipe down of those areas will be charged to the User at the prevailing rate.

Please consult your event manager for additional information regarding the use of fog and haze machines within the facility.

The Fire Marshall will also be informed of dates when there will be haze or fog used in Boise Centre and will be kept current with any updates or modifications to this policy and procedure.

### **BOISE CENTRE MISSION STATEMENT**

As Idaho's premier event venue,  
our mission is to **WOW** our guests with unforgettable experiences.  
Our team of passionate, creative professionals are devoted to  
excellence in food, service, amenities and venue management.
